

# Innovative stress measurement and laboratory services

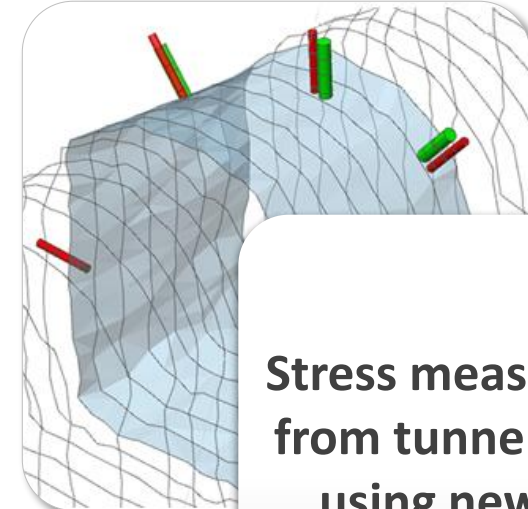

## Rock laboratory testing

E.g. UCS: ~410 EUR  
E.g. UCS: ~590 AUD  
E.g. UCS: ~590 CAD  
Inc. est. shipping

## Borehole stress measurement using hydraulic fracturing and overcoring

## Stress measurement from tunnel surface using new LVDT method

**STRESS  
MEASUREMENT  
COMPANY OY**

# Measure rock stress from tunnel surface

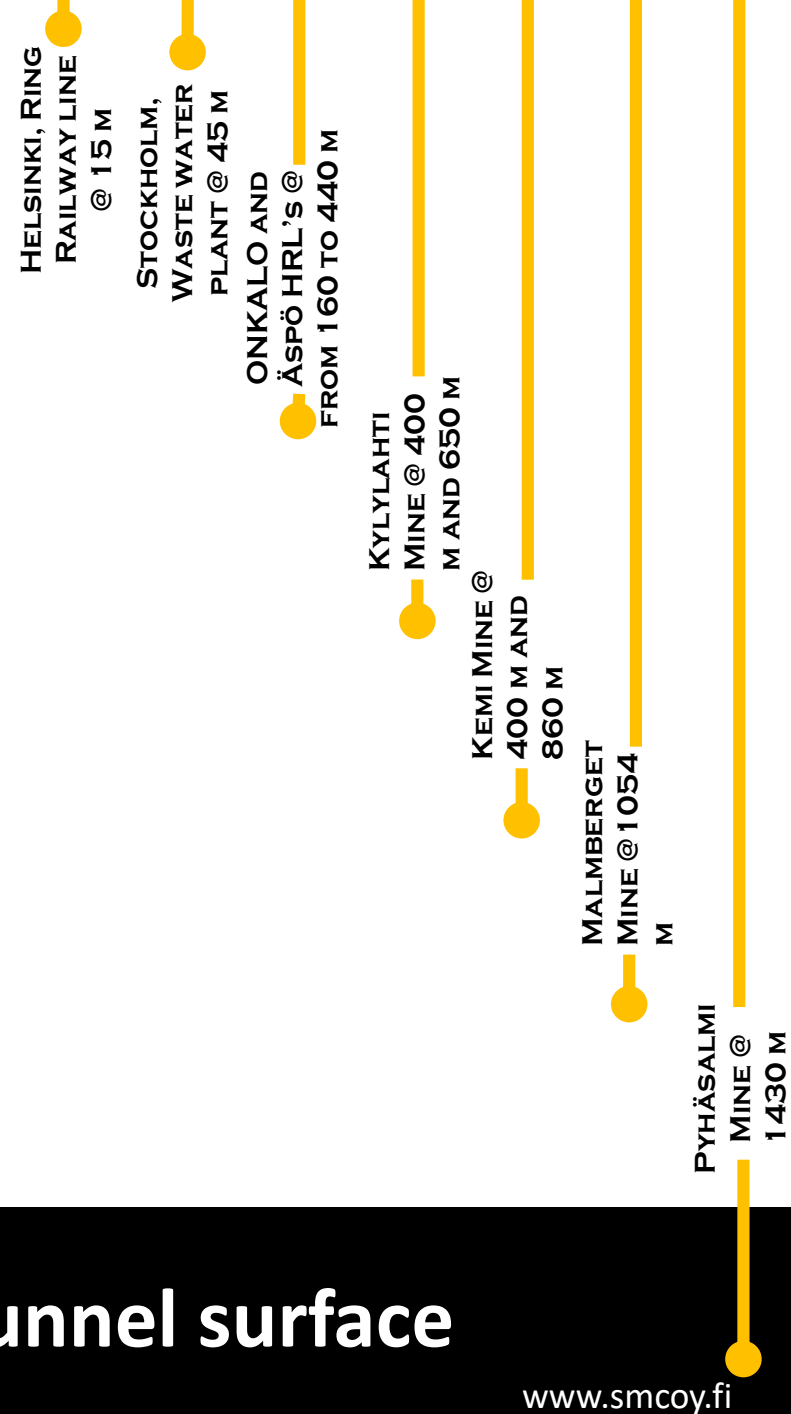

# New way to measure rock stress

- New method way to measure rock stress from tunnel surface
- It is fast, cheap and reliable
- Deepest mines in Scandinavia rely on our technology

# Know your stresses to

- Reduce support costs
- Support unstable areas in advance
- Decrease waste rock dilution
- Less ore left to pillars
- Less Fall of Ground accidents (Safety)

# Stress measurement in deep mine at -1430 m depth
